Reference: FEC Letters Dated October 4, 2012  
Identification Number C00501452

November 6, 2012

The referenced letters address Amended Quarterly Reports April 2012 and July 2012. On some lines of the reports Column B amounts appeared to be incorrect when compared with previous reports and current activity. Also noted were amended reports receipts and disbursements increases and decreases from original reports.

Instances of cumulative totals (Column B) appearing to be incorrect and beginning balances and ending balances not agreeing are the result of various changes and corrections in entries in each reporting period starting in the July Quarterly 2011. Comparisons of amounts in one report to the next may not agree if all affected reports were not amended, which was the case. For example, if a change were made in September 2012 to an entry involving September 2011 the change would flow through each of the reports previously submitted.

Over the course of reporting starting with the July Quarterly 2011 changes/corrections have been made in each reporting period. However, amended reports were not necessarily submitted. Each of the differences cited is due to this "mis-match". The changes are not considered significant. However, in order to ensure submitted reports are consistent and include all changes each is being amended and included in this submission.

The attached pages explain in detail the receipts and disbursements changes described in items 3 and 4 and the attachments to the Amended April Quarterly FEC letter.

Respectfully submitted,

Robert S. Pettengill  
Assistant Treasurer  
The American Way – Durant 2012
